The data collected are registered by Ubisoft to proceed to Supplier payment, will be stored 5 years after the end of commercial relationship, and archived to justify the due diligences to relevant authorities. They will be only available to the persons in charge of managing supplier payment process. These data can be transferred in countries outside the European Union, either because they maintain a suitable level of protection recognized by the European Commission or if their level of protection is framed by contractual terms validated by the European Commission. These terms are available on the European Commission website. The collection and processing of personal data are justified due to Ubisoft legitimate interest of meeting the legal and regulatory obligations. The impacted persons can exercise their right of access, rectification (if the information entered is incorrect or incomplete), opposition, erasure, limitation of processing and portability of all the personal data concerning them - subject to any legal and regulatory limitations - by contacting the team in charge of the personal data protection in Ubisoft via the following address: dpo@ubisoft.com. They can also lodge a claim to their national control authorities.
